Product Usage Guide

High Range Chlorine Test Strip Guide

Degreaser

ACTIVE INGREDIENT:
Sodium Hydroxide (NaOH).....0.1%
Water (H2O): 99.9%
Total: 100.0%

This product is designed for heavy duty cleaning and degreasing applications.

1

- Heavy-duty fatty grease removal in food service areas
- Daily mopping of kitchen floor
- Heavy-duty all-purpose cleaner
- Daily bathroom cleaner for toilets, urinals, and stall walls
- Carpet spotting and extraction pre-spray
- Grout cleaner

- Active ingredient is NaOH, so no chlorine is used

All-Purpose Cleaner

ACTIVE INGREDIENT:
Sodium Hydroxide (NaOH).....0.012%
Water (H2O): 99.988%
Total: 100.000%

Dilution Factor of 7:1

This product is designed for general cleaning applications.

2

- All-purpose daily cleaner for all surfaces
- Neutral floor cleaner (used for filling mop buckets and auto scrubbers)
- White board cleaner

- Active ingredient is NaOH, so no chlorine is used

Glass, Chrome, & Stainless

ACTIVE INGREDIENT:
Sodium Hydroxide (NaOH).....0.008%
Water (H2O): 99.992%
Total: 100.000%

Dilution Factor of 11:1

This product is designed to clean glass, chrome, and stainless surfaces.

3

- Glass and mirrors
- Stainless steel and chrome
- Plexiglass

- Active ingredient is NaOH, so no chlorine is used

Broad Spectrum Disinfectant

ACTIVE INGREDIENT:
Hypochlorous acid..... 0.046%
Water (H2O): 99.954%
TOTAL: 100.000%

Contains ≥500 ppm Free Available Chlorine

This product is designed for broad spectrum disinfection. Use a chlorine test strip to ensure PPM strength.

4

- Full Strength Disinfecting Applications
- Used to disinfect bathrooms after cleaning process
- For use in all Electrostatic sprayers - No PPE required
- Biohazard/Body fluid spill disinfecting

- Test strip should match this color

Daily Disinfectant

ACTIVE INGREDIENT:
Hypochlorous acid..... 0.013%
Water (H2O): 99.987%
TOTAL: 100.000%

Contains ≥185 ppm Free Available Chlorine
Dilution Factor of 2.5:1

This product is designed for daily disinfectant application. Use a chlorine test strip to ensure PPM strength.

5

- Used to disinfect all high touch surfaces (Desk tops, light switches, door handles, remotes, keyboards, etc.)
- For use in child care centers to disinfect all of the children's toys and play areas (No rinse required). Toys and areas must be cleaned prior to disinfecting

- Test strip should match this color

Sanitizer

ACTIVE INGREDIENT:
Hypochlorous acid..... 0.0115%
Water (H2O): 99.9885%
TOTAL: 100.0000%

Contains ≥140 ppm Free Available Chlorine
Dilution Factor of 3:1

This product is designed for sanitizing applications. Use a chlorine test strip to ensure PPM strength.

6

- For use on all food service contact surfaces (No rinse required)
- Sanitize drinking fountains & bottle fillers (No rinse required)
- Spray and leave in trash can to reduce odor by killing odor causing bacteria
- Can be used on any water safe surface

- Test strip should match this color
